

Master of Ministry Program

Fall Module

Sep. 30; Oct. 7, 14, 21, 28, 2010

CM 505 Principles of Biblical Counseling

8 a.m. to 12 p.m. (2 credits)

Dr. Eugene Nichols

The system of Biblical truth is introduced which brings people and their problems together with God and His Word. This course is especially helpful for pastors and is based upon the convictions that: The Bible is sufficient for counseling and should be our authority. Counseling is in-depth discipleship and is to be a vital part of the discipling ministry of the local church. Christians as well as church leaders should be trained to counsel effectively. The Biblical doctrine of counseling is considered along with its philosophy, principles, and practice in the local church. Particular emphasis is placed upon the techniques of applying Biblical principles in real life situations and the development of counselors in the church.

CM 520 Bible Study Tools for the Greek NT

1 p.m. to 5 p.m. (2 credits)

Brian Wagner

Not quite first year Greek, but almost! This intensive course module is designed to help the busy pastor, or motivated layman, to gain a firm enough grip on Koine Greek so that he will be able to use the main New Testament Greek reference tools available. After a quick foundation in the language, the student will begin to apply his newly acquired recognition skills to helpful homework exercises that will hopefully become a regular part of his Bible Study habits and teaching preparations. Word studies, grammatical choices, and interpretation decisions will become much clearer through an ability to look more closely at the language God chose for the inspiration of His Word.
